

Recipient of the ACEC-IL 2008 Engineering Excellence Merit Award (Top Golf, Wood Dale, IL)

CGL was presented with the ACEC-IL 2008 Engineering Excellence Merit Award for the site plan development of Top Golf in Wood Dale. The project included the design and construction of an outdoor driving range with electronic reading sensors within each target green. Special grading, geo-technical, and geo-hydrologic considerations had to be evaluated to accommodate the sophisticated subsurface electronic ball reading and collection/retrieval systems. Further consideration was necessary for construction within poor subsurface drainage conditions and for site improvements within regulatory floodplain. The facility also included a golf pavilion, two level driving platform, expanded parking lot, miniature golf, and stormwater management facilities.
